"A FRIENDLY ZONE TO BUILD YOUR HOME"

VOL. XXV—No. 44 Cypress, California, Friday, August 15, 1952 5 CENTS PER COPY

Give First Block Party Sat.

SAID IN CYPRESS

By Newsy

Well, we put Mother and Dad K. on the plane Monday morning at 1:15 for their first time aloft! That ungodly hour has its advantages in that the fare is lower, the ride smoother, and the time of arrival at the other end of the line is as convenient as any. Dad K. is one of these people who always thought the second story of a house or building was high enough to go "up." We visited Des Moines many years ago, the two of us alone, when the writer was about twelve years old. He never did make it to the top of the State Capitol building.

A first plane ride is like an operation. Everybody has a story to tell, which is usually on the dark side and would kill the sale of the tickets if they weren't already purchased. "Pat" Arnold really prepared "Dad" K. He gave him a bunch of seasick pills, then turned around and gave him a bunch of big, black cigars. If one didn't fix him up, the other was bound to!

Air travel is still enough of a novelty to most of us "commoners" that the excitement of an airport and the air of anticipation is a thrill. People about to board planes have that attitude of expectancy which is tell-tale of the amateur "fly-passenger."

The last we saw of the couple who would celebrate their forty-fourth wedding anniversary the next day was when Dale left them at the last gate. They had a determined step as they boarded the plane, as much as to say, this is like a trip to the dentist or a dose of bad medicine—let's get it over with!

But our first postcard proved that realization was on the better side of anticipation this time. Nothing was said about their reactions to flying, but in the seven hours it took to reach Omaha, they had eaten a breakfast of cantaloupe, 2 pancackes, 2 rolls with lots of butter, little sausages, syrup and coffee! So you can judge yourself what kind of a crossing they had. The Iowa family was waiting when they alighted.

We hope that you will bear with us during the next few days. The

(Continued on Page 8)

Beginners To Register; Will Decide Classes

Closing date for deciding whether children east of Walker or west of Walker street will attend kindergarten in the morning will be September 1. The side having the larger number of children registered on that date will attend in the mornings.

Parents may register their children any week day at the school. Miss Elizabeth Dickerson, Superintendent, asks that they bring along the child's birth certificate or proof of brth. A chld must be four years and nine months old on or before September 1 to enter kindergarten. He must be five years and nine months old on or before September 1 to enter first grade.

All kindergarten parents are invited to attend a tea on Friday, September 5, at two p.m. in the utility room of the school, given for them by the teachers. The school nurse will be present and a general discussion of the preschool child will be held.

Method of alphabetizing the names of the children for room placement will be a little different this year, Miss Dickerson said. Registration will be held for all children Monday, September 8, between 9:30 a.m. and 12 noon in the utility room at school. School opens in Cypress September 10 for the first official day. Parents who have last-minute summer vacations may be interested in this in formation.

Cypress Attacker Admits Murder Of Ruby Ann Payne

An eighteen-year-old ranch hand who was apprehended in Cypress in 1948 at the age of fourteen for an attack on a local woman in her bedroom, admitted the brutal slaying of Ruby Ann Payne, fifteen-year-old Yorba Linda baby sitter Tuesday.

William F. Rupp confessed the murder when he was picked up Tuesday night trying to buy two cheeseburgers in a Brea restaurant. He hadn't eaten since he began his flight from police Friday. The net around him had tightened Tuesday afternoon when his car was found in Carbon Canyon, its motor still warm.

Ruby Ann was found Friday, killed by a .22 rifle bullet. She had been shot twice, and her clothes were ripped from her body.

In the 1948 Cypress case, the molested woman was beaten by an intruder whom sheriff's officers said attacked her as she was preparing to retire during the absence of her husband. Rupp was sentenced to 90 days treatment at the Camarillo State hospital when a report to the juvenile court indicated he had sexual psychopathic tendencies.

He was arrested at Mira Loma, Riverside county, in October, 1951, for car stripping and had served

(Continued on Page 8)

Resume Meets Of Boys Scouts Monday Nights

Boy Scout Troop No. 76 will begin its regularly scheduled weekly meetings September 1, according to Warren Ter Beest, scout master.

Starting at 7:30 p.m., the meetings are held every Monday night in the annex of the Cypress Church of the Nazarene.

Any boys who have turned 11 years of age and are interested in scouting may come to the meetings, Ter Beest said.

DEAR DEER!

They are making with the word "deer" quite frequently these days out in the east end of town. But it is definitely the four-legged kind, and not the term of endearment which is being pronounced.

O. F. Dixon got a headstart on a group of men he was to go hunting with on the first day of the season. He arrived in the Frazeir mountains, then got himself a four-point buck with the velvet still on the horns during the first half hour after his arrival. He looked at the pinpoint on the map he had, marking the rendevouz decided upon by the group. Not finding anyone in that vicinity, he came home!

"C" Thompson and the rest of the party, all men he works with at Douglas, got there in due time. "C" got a deer, too. It might have a point or two more than Dixon's, which is almost more than can be said for this story.

Oh, dear!

Aux. Expects Good Crowd At Street Fete

Old-fashioned enough to want to go on a hay ride? Operation "hay ride" is well in hand for the block party Saturday night, according to Mrs. Ray E. Lucas, chairman for the sponsoring auxiliary to Cypress C. R. Rogers Memorial Post No. 9847.

In response to a newspaper appeal for a wagon and horses, Bert Bingham volunteered use of his equipment with no thought of personal benefit. Bingham was a veteran of W. W. I and anxious to do his part to make the community affair a success. All proceeds from the hay ride will go into the profits of the affair.

To begin at seven o'clock Saturday evening, the street dancing and miniature "midway" will be in full swing until twelve o'clock. Walker street will be roped off between Lincoln ave. and the fire station.

The auxiliary itself will sponsor a stand at which peanuts, cotton candy, popcorn, balloons, hot dogs, cake and coffee will be served.

The Rebekahs will open a booth selling cake and cookies, and the Cypress Women's Community club will sell pop. The chamber of commerce is planning a game of some sort.

Special events include a cake walk and broom dance. There will also be a community sing. "Cousin Joe's Country Tune-Toppers" will furnish the music.

Residents are urged to buy their tickets from the Boy or Girl Scout solicitors. A prize is being given to the one who sells the most. Tickets will be on sale Friday and Saturday downtown, also.

Set Monday For Meeting of White Gold Day Organizational Group

Monday night at 8 o'clock representatives of all Cypress organizations participating in White Gold Day, October 4, will meet at the school house to discuss plans for the coming event, it was announced by Don Caul, general chairman, at the chamber of commerce meeting Monday night.

Caul said that most of the application blanks have been turned in, and the other clubs will be contacted and their representatives notified.

Matters to be discussed will include types of booths to be sponsored, so that no duplications will occur, and a tentative schedule of events for the day will be listed.

Barbecue Considered

Sponsor for the barbecue, which has always been one of the main attractions, is under consideration, with one club having tentatively spoken for it. Further arrangements with a caterer must be made, however, before definite steps are taken.

Arrangements are also being made to add a horse division to the parade this year, said Caul. For the past two years, due to the size of the celebration and the amount of work the project involves, the parade had been limited to a Kiddy Parade.

Matches For Sale

A project which has been under way for some tome, special chamber of commerce match books to be sold on store counters to raise money for the chamber of commerce Christmas Kiddies' Fund, is now ready to go, Dale Kroesen, chamber president, said at the Monday meeting. Display boxes are being put into stores as soon as they are completed, and results so far have been excellent. The matches sell for whatever the purchaser wants to give, but it is hoped to average about two cents each.

Mrs. Jeff Jeffrey donated time and constructed the boxes which contain the matches, and have a built-in coin box.

Block Party Booth

Kroesen announced that plans for the Chamber's booth in the VFW auxiliary block party Saturday night will consist of a penny-pitch board, if it can be completed in time.

Pat Arnold, member of the Park Board, gave a report on the progress of the park construction.

Amy Meils Wins Prize On Painting

Cypress has the beginnings of an artist in little Amy Meils, first grader here. For a water color entitled "Skipping", she won a blue ribbon prize in the junior art division of the Laguna Beach Festival of Arts show over 1800 other Orange County first grade entrants.

Amy is the daughter of Mr. and Mrs. Robert M. Meils, 5311 Lincoln ave. Her teacher in Cypress elementary school in the first grade last year was Mrs. Castella Rogers, who sent the drawing. Entries were judged by a jury on originality, free hand drawing, choice of materials, etc.

Grass Grows At Cypress Park Site

Evidence that a park for Cypress is in the making may be seen these days after a drive past the site at Watson and Crescent streets. Half of the area has been seeded, and the grass makes the appearance of a green carpet spread out. Jack Coburn has been employed by the county as up-keep man. Each half of the "lawn" will be done separately.

A. E. Arnold, member of the county planning commission, said that Henry C. Wildman, architect, estimates the ball diamond, lights, septic tanks, back stops and fence will cost about $18,000. Plans have been completed for these things, which will be done first. Tax money will not be available for the grandstand and toilets in the grandstand until after the first of the year, which will be built at an estimated cost of $31,000.

Mrs. Williams To Take Voters Names Saturday

Mrs. Milam Williams has taken over the duties of registrar in the Cypress area for Mrs. Frank Williams, until the latter is able to resume her duties once more. She was taken to St. Joseph's hospital in Orange on Monday, where she submitted to major surgery on Tuesday morning.

Mrs. Milam Williams states that she will be downtown on Saturday at a convenient location, probably in front of the post office, where she will register voters. Mrs. Williams is Americanism chairman for the Cypress VFW auxiliary, and is giving this added service because of her interest in the affairs of her office. She has registered voters here before.

Residents are warned that September 11 is the deadline, and in order to vote in the presidential election in November, they must be properly registered. Mrs. Williams will be glad to answer any questions regarding eligibility.

CYPRESS ACRES WATER COMPANY ACTIVE BUSINESS

Business of the Cypress acres water company goes on as usual, with the ordering this week by the secretary-treasurer of more printed notices.

J. C. Napier, 8692 Belmont st., resigned as president last year in order to assume the duties of the former secretary-treasurer, Henry Lesch, who had held the post since January 1, 1947. Mr. and Mrs. Lesch now reside at 109 Ohio st. in Anaheim. However, the Lesch's were residents of Cypress for many years and he was active in the water company during their residence here.

Al Petrie is the present president.

TRIUMPH AT HELSINKI

The American track and field athletes at the Olympic Games have done a pretty fair job. Yes sir, pretty fair, or maybe a little bit better than that.

As a team they outran and outperformed the competitors from all other countries. And they even outdid the best that American athletes have achieved in the past. The 15 gold victory medals collected at Helsinki top the dozen won at Berlin in 1936 which was the highest until this year.

California's own Bob Mathias, the greatest all-around athlete of all time, became the first man ever to win the Olympic dacathlon a second time. And he set a new point record in the process.

In no less than five events the lads from the U.S.A. (that "decadent" nation) swept the first three places. That's as many men as we were allowed to run.

Brutus Hamilton, head coach of the American Olympic Team and who is also athletic director at the University of California, told the team: "You are going to be immortal. You have won all the medals you were supposed to win. You have won other medals you were not supposed to win. I can't tell you how very happy you have made me."

Well, they've made the rest of us feel pretty happy too, Brutus.

—California Commentator

ENDED—AT LAST!

The box score on the recently-settled steel strike reads just like any other strike—everybody lost. But in this instance, everybody lost a lot more than usual.

Millions of tons of steel weren't produced, millions of man hours weren't worked, millions of dollars didn't go into pay envelopes and dividend checks and millions of people were sorely hurt by it all.

From the settlement it is quite obvious that an agreement substantially the same as that finally accepted could have been reached without a strike. But as long as stubborness instead of statesmanship dominates the bargaining table the pattern isn't likely to change. And as long as the public itself continues to be indifferent to these paralyzing work stoppages it has little reason to complain about the conduct either of union or industry leaders—or government leaders, too!

It is to be hoped that eventually we shall attain such maturity in our economic life as will crystalize public opinion into an active force which can and will be brought to bear on economic problems such as these. But this will come about only as each citizen is willing to face up to his individual responsibilities.

—Calif. Commentator

I RISE TO REMARK

By JOHN PHILLIPS

(Note to Editor—Donald G. Adams, of Riverside, California, Administrative Assistant to John Phillips, M. C., has substituted for Mr. Phillips this week on his "I Rise to Remark" column.)

The copy of Mr. Phillips' column, "I Rise to Remark," for this week has apparently been delayed in transit from Europe, where he and Mrs. Phillips are spending a short, well-deserved vacation. The writer will attempt to "pinch-hit" for him under the circumstances.

We shall make a few observations about Washington after eight months on the staff of your Congressman in the Capital of the Nation.

One hears a great many unfavorable comments about Washington—its weather, hot in summer, cold in winter, its turmoil, its rush, its red tape and many other criticisms. In short, according to most reports, it is a good place to stay away from. Some of these comments are true, but many of them are badly exaggerated. One cannot really appreciate the good points of Washington unless they spend more than the usual few days that most visitors experience.

Washington is a beautiful city, especially in the spring and summer. Its beautiful tree-lined streets, its many parks, its beautiful green lawns and the rolling countryside of nearby Virginia and Maryland, are something to behold and enjoy. The change in the seasons is something that a Californian cannot appreciate until he has had that experience.

True, it is hot and uncomfortable at times in the summer. We have just experienced a long hot spell, a real heat wave, but air conditioned offices and apartments help one to survive these bad bits of weather. The winters are actually mild as compared with other parts of the country and, as Californians, we experienced no unreasonable discomfort. If we will admit it, every locality, even Southern California, has disagreeable phases in its weather.

Incidentally, weather is the most popular topic of conversation in the Capital. Weather reports are given on the radio at least once every hour.

* * *

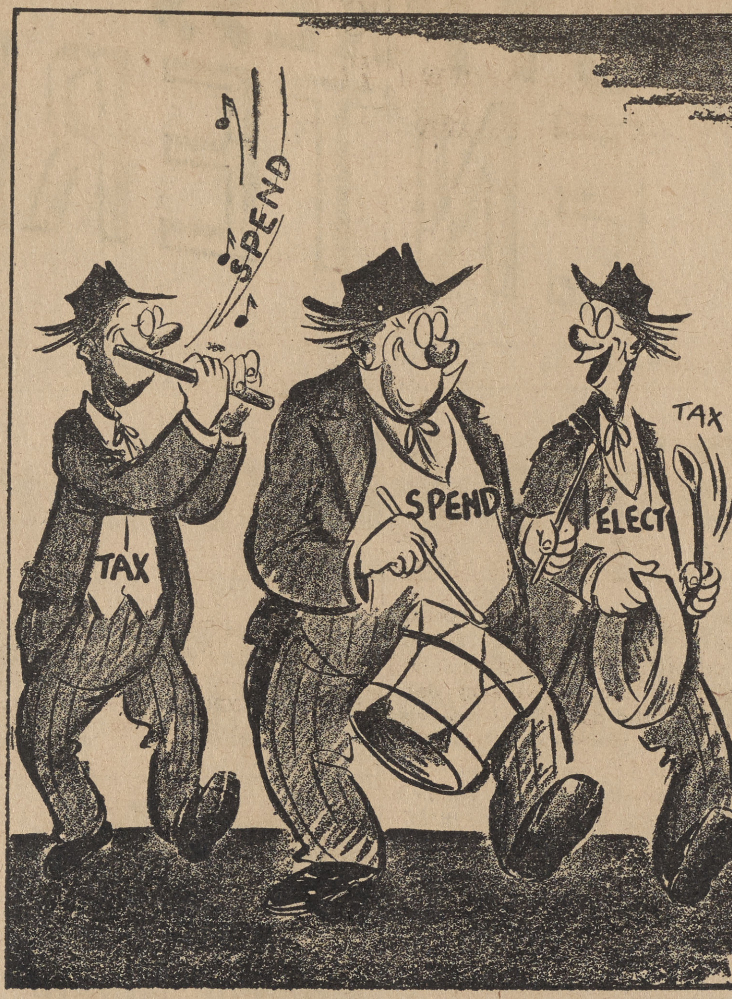
The wide variety of activities in a congressional office, located in the Capital, cannot be fully appreciated until one has been associated with such an office. The original concept of the duties of a Congressman, the Representative in the House and the Senator in the Senate, call for legislative representation in the legislative chambers in making the laws of our nation. Today, not only does the Congressman perform this constitutional duty, but in addition he, in reality, has become the agent of his many constituents in Washington, representing them in the Capital at the seat of the federal government, endeavoring to solve the many individual problems which they may have with the numerous federal departments, agencies and bureaus. This additional function of a Congressman has become exceedingly heavy throughout the years with the increase in the number of agencies and bureaus attached to the federal government. The actual case load in every congressional office increases year by year. This particular function requires much of the time of the Congressman and the major portion of the time of the staff. Every imaginable type of problem comes across the desk of the Representative.

This additional function of a congressional office was not contemplated when the Constitution was adopted. It is an activity that has grown with government. Added to the legislative duties of a Congressman in keeping in touch with the numerous bills introduced each session (more than 8000 bills were introduced in the 82nd Congress), it has become a real problem for a Congressman, making it necessary for him to devote much of his time on non-legislative matters, and requiring an increased staff to handle correspondence and to follow-through on the various individual cases by contacting the numerous federal departments, agencies and bureaus. Experience in this latter regard is most helpful in endeavoring to bring about a satisfactory solution to each case. Time, patience and perseverance are also necessary requisites. Many concerns and individuals, who have numerous problems with the federal government, employ Washington representatives to do this same type of work.

Sometimes, we at home, do not understand why our individual problems cannot be more promptly brought to a conclusion, and become impatient. When one has worked in Washington and understands the magnitude of the government's operation and the many people who must be dealt with in the various departments, agencies and bureaus, they can then realize why it takes time to solve the individual's problem.

From all parts of the country there are like problems to be solved, with every congressional office contacting the various departmental offices, endeavoring to solve the individual problem. Actually, it is remarkable that many of the cases are brought to a conclusion as promptly as they are, in view of the magnitude of the government's operations.

‘SPIRIT OF ’52!’...???



200-Ft. Setback Under Scrutiny

County supervisors today had under advisement the proposal to eliminate the 200-foot setback provision of the county building code, with indications that the code probably will be amended to exempt only accessory buildings from county inspection and building standards.

The code at present exempts all construction located 200 feet away from public roads, and is under attack because of increasingly heavy building of below-standard homes under its protection. The setback provision originally was designed to permit farmers to erect accessory buildings as they pleased.

At a hearing before the supervisors Tuesday afternoon, with the chamber packed to capacity, representatives of city and realty interests, as well as the Orange County Farm Bureau, presented their views on the code. Anaheim city, realty board and chamber of commerce representatives protested the development of fringe "shack" areas about the cities under the 200-foot setback.

Farm Bureau secretary, C. J. Marks, said that the Farm Bureau membership is divided on the question, but the Farm Bureau's official position merely requests that farmers still will be permitted to erect accessory buildings.

County Cuonsel Joel Ogle had prepared such a proposed amendment to the building code, eliminating the 200-foot setback and exempting only accessory buildings from code standards and inspection.

The board took the question under study for an indefinite period.

Mr. and Mrs. Charles Richmond had their trailer parked down at Del Mar and are able to make frequent trips to the southland point.

Beason Kiddies Note Birthdays In Joint Affair

Jimmy Beason was seven years old on July 6. His sister, Susie, was six years old on August 18, which is also her maternal grand mother's natal day, Mrs. Rbt Gallaway of Santa Ana. The children's parents are Mr. and Mrs. Karl Beason, 8621 Belmont street.

Last year their mother gave two parties, to which they invited the same kiddies, because they are so near the same age. So this year she decided on one grand and glorious affair, for both the children at once. She chose Saturday, August 2, as being an in-between date.

The guests assembled at the appointed hour, presenting the honorees with many appropriate gifts, after which they all played games in the yard outside.

At the refreshment hour, one large decorated cake sufficed for both Jimmy and Susie, and they both had the thrill of blowing out their candles. Ice cream and punch were also served at a table with gay birthday accessories and table cloth.

Little guests were Harry Jolly of Long Beach; Patty Marshall of Hawaiian Gardens; Willy Idsinga of Artesia; Marjorie Callahan; Lynn Bock; Sharon and Tim Jones; Neil, Connie and Louise Bakker, and tiny sister Kay Beason, of the home.

Mrs. Henry F. Davis, 4751 Crescent st., and her three sisters made a trip to Wyndmere, North Dakota, to attend a family reunion of the Poppen clan. Their parents, Mr. and Mrs. George Poppen also celebrated a wedding anniversary. All of Mrs. Davis' brothers live in North Dakota, and the sisters live in California.

Meet Serves Dual Purpose For Rebekahs

A visitor at the regular meeting of the Busy Bee Rebekah lodge was the district deputy president, Mrs. Barbara Myers, and her marshal, Mrs. Bessie Curtis, both of the Lois Rebeka lodge in Ana heim. A goodly-sized group was present as Mrs. Myers instructed newly installed officers and also outlined the project set forth by the new assembly president, Mrs. Ethel M. Garner. She hopes to be instrumental in raising sufficient funds to paint and repair the orphans' home at Gilroy, as her goal for this year, Mrs. Myers said.

The meeting night also occasioned a celebration of the group's second birthday, coming as it did so close to the anniversary date, August 9, the date the lodge was instituted. Mrs. Bessie McCoy was hostess for the evening, and cake and watermelon were served during the social hour.

A group of members attended courtesy night at Torosa lodge in Santa Ana on August 13. Special guests were the noble grands, vice grands and junior past noble grands from neighboring lodges.

On August 19, a district school of instruction will be held at Mesa lodge in Costa Mesa. Mrs. Rose Hake, vice grand of the assembly, will be instructor at the all-day session beginning at ten o'clock in the morning. Hostess members will serve both luncheon and dinner.

Israel Topic Kiwanis Talk

Foreign Minister of Israel Moshe Sharett was the subject of a talk given to Cypress Kiwanians at Loyd's Drive-in Monday night by the Rev. Wm D. Howard, minister of the Cypress Church of the Nazarene.

Rev. Howard heard the foreign minister at a banquet in Kansas City while on a recent trip there. Subject of the talk was Israel development.

Two visiting Kiwanians were present, Ed Logan of Buena Park, and Jack DeVries, Cypress, who is president of the Norwalk club.

DENTIST TAKES OVER ARTESIA PRACTICE

Dr. W. R. de Lyre has taken over the office and practice in Artesia at 18332 Pioneer blvd., from Dr. Gordon McHatton.

Dr. McHatton was recently recalled into duty with the army.

Arriving at the E. R. Siples home on Sunday were three guests from out of state. Two of them were his nieces, Misses Eleanor and Irma Satre from Idaho and Washington. Accompanying them was a girl friend of Miss Irma Satre's from Yakima. All three are school teachers.

Emil Holborow, eight-year old son of Mr. and Mrs. A. B. Holborow; 8611 Walker street, is recuperating at home following a severe neck injury sustained in play. He spent five days in Artesia hospital, but is able to be about with the aid of a neck brace.

'Chit-Chat from The Teeners'

**Nolan Blackman
and
Gloria McKinzie**

Kay Kelliker left Cypress Monday. She is eventually bound for Europe.

Marian Simmons is back in town and she has racked up a lot of good times so far during this vacation.

Leonard Slabaugh and Alison Wheeler are on the verge of destruction but we sure hope you kids can work things out all right. Leave the kids alone, Loly.

Karen Seibert is back in Cypress now. Welcome back Karen.

Bill Ames and Tootsy De Bruyn have been going steady for 2 months and 15 days as of to day.

We are hapy to have as residents of Cypress now Mr. and Mrs. Johnny De Bruyn.

Cynthia Ferreira is now living in Salinas, California. She is close enough to the base, where Joe is, that she can see him often and that makes her real happy.

What's the matter with Gloria these days? She is looking mighty low. Has her man dun gone and left her???

Robert Jensen's mother had a fine little baby boy this week.

It seems that Mickey found him a nice plump gal this last Saturday night when Mickey, Nolan, Chuck Bell, and Richard Gonzales went to East L. A. to see Big Jay. The boys say she is really a dream (nightmare). Do you think his beard is effecting his judgment???

If any one is interested, Big Jay is going to blow in Bell Gardens at the Legion hall, on Jabonarea Road, tonight.

It seems that the old fad of paroxided bangs is coming back. You can see what we mean if you just look at Kay Kellicker, Shirley Boudreau, Barbara Amling, and Gladys Slabaugh.

Gloria is now learning the trade at the Cypress Serve-Your-Self. Sounds like fun, doesn't it ? ? ?

Delores Pride (nee Slabaugh) is still living in Long Beach. She is anxiously awaiting the return of her husband, Larry Pride. He is expected home any day, from Korea.

Club Holds Big Picnic

One of the largest groups to ever gather for a picnic of the Cypress Women's Community club got together Tuesday evening at the schoolgrounds. The outdoor affair was attended by about sixty members and their families. A delicious contributed meal was the main order of business, which was dispatched in good time.

Hostesses were the officers, Mrs. Earl Essex, Mrs. A. E. Arnold and Mrs. James Broadbelt. Miss Elizabeth Dickerson was a special guest.

The September meeting will be held in the patio at the A. E. Arnold home on Bishop street. Hostesses will again be Mmes Essex and Arnold, and Mrs. Ed Robinson.

COUPLE OBSERVES WEDDING ANNIVERSARY

Observance of their fifteenth wedding anniversary was noted on Sunday, August 3, by Mr. and Mrs. Jesse O. Vaughan with an out-of-the-ordinary celebration.

Her brother, Mr. and Mrs. Homer Randall and their children from Compton, and their friends, Mr. and Mrs. Max Goodman from Torrance, joined the couple on a fishing trip. They took along a goodly-sized lunch, and parked themselves out on the rocks at Seal Beach, where everybody fished. They don't report how many fish they caught, but from all indications they had a never-to-be forgotten good time.

Mrs. C. De Kleer, 5413 Bishop st., was in Los Angeles bright and early Tuesday morning to meet her father, Simon Visser, from Holland. The elderly man had Dutch companions on the bus as far as Salt Lake City, but came the rest of the way by himself. Other children are two daughters, Mrs. Jake Tuls of Cypress and Mrs. John Vanrin of Norwalk, and a son, G. Visser of Paramount. He was impressed by the great size of the United States.

Evening Worship	7:30
Midweek Service, Wednesday	7:30

"Choose a church in Cypress community. Attend its services and join in its work. Make it your church."

The Baptist church extends a welcome to all to worship with us.

Guest of his former townsmen in Story City, Iowa, Ramon Wicks has been entertained the past week by Rick Townswick of Cypress and his cousin, Ed Hermanson of Buena Park. Wicks has been satisfied with the results of his train ride to southern California, and while he will return to his job in Ames, Iowa, he is hoping that some day he may join his friends here.

Bible Classes Elect Leaders At Nazarenes

At the Cypress Church of the Nazarene Friday evening, the men's and women's Bible classes enjoyed a joint meetng. Offcers were elected, with Ocie Ferguson being chosen president; Mrs. Ferguson, vice-president; Mrs. Frank Davis, secretary; Clarence Norland, treasurer; Mrs. Hollis Woodmansee, Sr., chairman of the refreshment committee and Mrs. Guy Smith, chairman of entertainment.

Games were played during the social period which followed the business session under the direction of Edward Chapman. Watermelon was served at refreshment time.

Mr. and Mrs. P. D. Coffman of Buena Park invited the classes to hold their next meeting in recreation park there on Friday, Sept. 12.

New Home Advisor For Orange County

Miss Meredythe Barker has been appointed new Home Advisor on the Orange County staff of the Agricultural Extension Service by the Board of Regents of the University of California, to succeed Lora Ward who recently married.

Miss Barker will assist Mrs. Marian Prentiss in the Home Economics program, according to Harold E. Wahlberg, Director of the Extension Service in Orange County. She will also be advisor to the twenty-one 4-H girls clubs and their leaders in Orange County.

The new advisor is a native of Massachusetts, receiving her Bachelor of Science degree in Home Economics and Education from Simmons College, Boston. She recently resigned from the Massachusetts Extension Service to accept this position. She was associate home demonstration agent in Hampsden County since 1949, and comes here with generous recommendations from her former associates in Hampsden County, said Wahlberg.

Miss Barker starts her official duties in Orange County on August 15, right in the midst of the extensive 4-H activities at the Orange County Fair where over 400 entries have been made in the several departments by 4-H members including clothing projects, food preservation, feature booths, livestock, poultry and rabbits.

Birthday Dinner Attracts Group Of Relatives

Relatives of Mr. and Mrs. Glenn Williams were invited to their home at 8152 Gilbert St., on Sunday afternoon to assist the former in the celebration of his birthday anniversary.

Each family contributed to the dinner menu, served in the popular al fresco manner on the shady lawn in the rear yard. The host presided at the barbecue where hamburgers were broiled over a bed of hot coals. Mrs. Milam Williams made and decorated the anniversary cake for her oldest son.

Mr. Williams was the recipient of a number of attractive and practical gifts in honor of the occasion.

Those attending in addition to his parents were his brother, Roger Williams, and a sister and her husband, Mr. and Mrs. Wallace Frazier, all of Buena Park; another sister and her husband and daughter, Mr. and Mrs. Edgar Davies and Janet of Anaheim; parents of the hostess, Mr. and Mrs. Glenn Wells, and a brother and his family, Mr. and Mrs. Boyd Wells, Marilyn, Billy and Jackie Mae of Atwood; another brother and family, Mr. and Mrs. Edward Wells and children, Michael, Sandra and Terry Ann of Orange; her brother-in-law and sister, Mr. and Mrs. Clinton Selby of Costa Mesa. The host and hostess and their two daughters, Irene and Marjorie, completed the group.

Not present for dinner but spending the evening were other relatives of Mrs. Williams, Dr. and Mrs. Ed Abbot of Glendale and their daughter and family, Dr. and Mrs. Steven Montgomery and children, Steven Jr. and Leta Lou of Bakersfield.

Regulation Of Subdivisions Suggested

Orange county subdivisions of the future may be required to have complete sewerage systems installed before the county supervisors will approve them, if the board adopts a recommendation of Richard Haster, member of the county planning commission from Garden Grove.

The proposal was scheduled for discussion Thursday afternoon at a conference between the supervisors and the planning commission.

Haster urges that subdividers should provide not only sewer connections for each house but main sewer lines along the streets. He said that tearing up streets not only is expensive, but in localities wheer there is sandy loam soil, the ground caves in under pavement after sewer lines are laid.

Subdivisions so supplied with sewer lines would be ready to connect with the nearest trunk line when the county sanitation districts have their systems in operation, it was pointed out.

How to make good telephone service even better....

You'll save time if you make
a personal number list for the whole family

When you've a hurry-up call to make . . . or just for day-to-day convenience in making telephone calls . . . you'll find a list of the numbers you call most often can be a helpful aid to faster service. And because memory often plays tricks, you'll find your personal number list will help you to avoid calling wrong numbers, and save you time when you can't quite recall the number of a friend. If you'd like to keep your number list in a handy, personal directory, just call, send a postcard, or drop in to your nearest Pacific Telephone business office. We'll be glad to give you a free special number booklet.

faster long distance service can be yours, if you give the operator the out-of-town number you're calling rather than just the name and address. That way, you won't have to wait while she gets the number from "Information" in the distant town. So, add out-of-town numbers to your personal list, too.

Pacific Telephone

County's Finest Fair Now Open

Last year's record-breaking attendance of 97,500 visitors is expected to be shattered and nearly doubled when the 1952 Orange County Fair winds up its final week-end run on this coming Sunday, August 17, at the fairgrounds on Highway 55 between here and Newport Beach.

Buena Park's own 4-H girls, the Stitching Susies, have entered a most attractive feature booth in the home economics competition. The girls have done the work and made the sign, "What's Wrong With This Dress?" themselves, under the supervision of Mmes. Frank Moore, Edwin Bastady and Wallace Bagley. Detail work in sewing is featured. Mrs. Bagley is also serving as clerk for the clothing judge.

One of the popular spots on the fairgrounds is the brilliant "Tropical Isle" Flower Show featuring thousands of prize blooms in an exotic jungle setting of nearly 4000 imported orchids highlighted by hundreds of rare tropical birds, Hawaiian musicans and hula dancers.

Top entertainment attraction for the final days of the fair will be the continuation of the brilliant performances of the National Horse Show which has attracted entries from many of the nation's finest stables. Horse show programs have been set for each evening as well as Saturday and Sunday afternoons.

Added attraction at each horse show performance will be the famous Ostrich Races and the hilarious Zebra-Donkey Polo matches.

Free stage shows, featuring The Great Velarde on the bounding rope and Princess Musetta on the flying trapeze in two performances, have been set for each afternoon at the outdoor amphitheater. Other special afternoon attractions will be the three performances of Hilo Hattie and her troupe at the exhibits building plaza.

For visitors' convenience will be the 50-acre parking lot with free tram service direct to main gate.

Recipes Given Bride At Party

Mrs. Richard Shirey, until recently Miss Carlene Korn, received many lovely gifts at a miscellaneous shower given by Mrs. Steve Cannon, 8311 Ball Road recently. Assisting hosesses were Mrs. Lester Moffitt, Mrs. Kelsey Williams and Mrs. Kenneth Lindley. The honoree was given a beautiful corsage fashioned by Mrs. L. M. Porter. Many of the guests are members of the home department of Cypress-Magnolia Farm Bureau.

Not the least appreciated of the bride's gifts were the favorite recipes contributed by each guest.

TOPS among exhibits at Orange County Fair which opened yesterday was the humorous display shown above. Knotts Berry Farm entered the old-fashioned family dinner portrayed by animated figures which perform laugh-provoking antics. The fair continues through Sunday.

Building Permits

Buena Park building permits for the past week aggregated $33,121 in valuation, placing this community third among the unincorporated towns of the county for the period. Total for the county was $473,039. Stanton permits aggregated $18,702. Cypress had $1500 in miscellaneous permits.

BUENA PARK HOSTS REGIONAL TOURNAMENT NEXT WEEK

Exhibition Game Saturday Nite

The Buena Park Lynx cinched third place in Pacific Coast League standings Tuesday night with a spectacular last-of-the-seventh inning win against the Phoenix Ramblers.

The local girls went into the bottom of the seventh on the short end of a 2 to 1 score. Lu Mahoney and Bev Meissen singled to fill first and second sacks when Carolyn Broady stepped to the plate and placed a Texas leaguer way out to the fence along third base line. Final score, 3 to 2.

The Lynx had one run under their belts in the 4th when Tommie Slappey drove Annabelle Lockabey all the way home. That edge wasn't enough, however, when the Ramblers' Dottie Wilkinson poled a long one just over Johnna Moore's head to score Lotha Diaz and cross the plate herself standing up.

Marie Rogers pitched to D. Wilkinson for the visitors, allowing 8 hits. Alsup and Whitney went the route for the locals, allowing only four hits.

The last league game of the season will be played at Orange tonight when the Lynx meet the Lionettes. League standings cannot be altered by the results of this game although a Lynx win would cut the Orange lead over Fresno to .2 of one game.

PACIFIC COAST LEAGUE FINAL STANDINGS

	W	L
Orange Lionettes	16	11
Fresno Rockets	17	13
Buena Park Lynx	13	16
Phoenix Ramblers	11	17

Members of the Lynx club underwent a tough grind on their home diamond here last week when a scheduled game between the Phoenix Ramblers and themselves lasted a mere 20 innings with the final score coming in favor of the Lynx 1-0.

The game saw some terrific catches and plays performed by both teams with Ruth "Wally" Waldo of the Lynx contributing both the fielding gem and the batting honors for the evening. Wally starts her first year with the club this year as a ROOKIE outfielder. However she has played organized ball for the last 16 years with Monrovia and other teams around Southern Calif.

Bobson of the Ramblers stepped to bat and pounded the ball for what looked to be a homerun, when Wally raced time and made a spectacular catch of the fast dropping ball. In the twentieth inning Lu Mahoney made first base and Wally punched a drive out to right field to end the game. Known for her speed is Wally Waldo rookie of the Lynx.

Tommie Slappey pitched sensational ball for the Lynx allowing but 5 hits in all 20 innings. She went the distance with Bobbie McDaniel catching. This year Tommie and Bobbie have worked together and collected some very fine games with all of them hardly going more then 4-5 hits a game. Slappey-McDaniel combination deserves a lot of credit for the game the other night.

Marie Rodgers pitched the full 20 innings for the Ramblers.

Friday Night Lynx vs. Orange

Buena Park lost to Orange Friday night 3-0 on the losers diamond. The Lionette team is in first place in both leagues now since Phoenix topped the Fresno Rocket club in a three game series taking 2 out of 3.

Bertha Ragan went to the mound for the Lionettes and Bev Meissen pitched for the Lynx. In the third inning Orange collected two runs. Another was gotten in latter inings for the final score. The Lynx were unable to score.

Lynx members are sporting their new green and white jackets with the name Nutrilite inscribed.

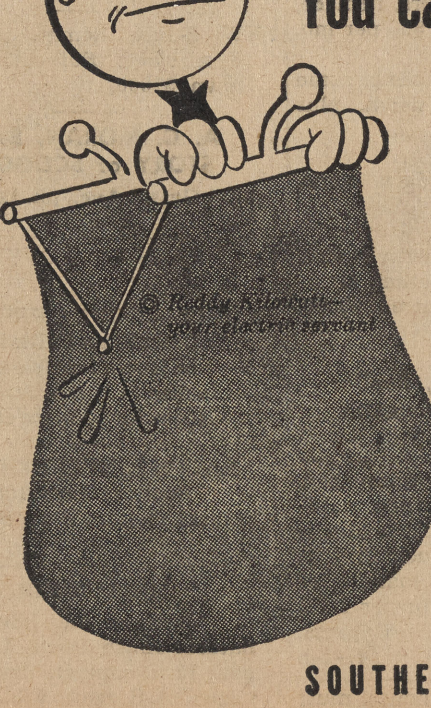
POWER POINTER

You can economize by not buying—but we can't!



© Reddy Kilowatt— your electric servant

Why do we keep on building electric service facilities when costs are so high and our construction budget runs into many millions of dollars every year? That's a good question. And here's the answer: We need the facilities right now. We added approximately 70,000 new customers to Edison lines each year in four of the past five years. Actually, our customers used almost a billion kilowatt hours more in 1951 than in 1950—and when someone orders electricity by flicking a switch, we must be able to deliver it.

"Edison electricity is your best buy—you can depend on it!"

NORWALK SQUARE EXPANDING

Purchase of the Norwalk Women's Clubhouse by Pacific Mutual Life Insurance Company's "Norwalk Square" was announced today by Lester Pando, Manager of the company's Real Estate Division. Escrow is now in the hands of the Norwalk Commercial Savings Bank. Purchase price is stated to be in excess of $75,000.

According to Pando, the additional area, which comprises two and a third acres, will permit extension of Norwalk Square's original plans without sacrifice of space for parking facilities. Under the original plans for construction of the most complete metropolitan-style shopping center in the country, Norwalk Square was to include a block for professional offices, a bank, post office, real estate and insurance offices, and whatever other facilities could best be utilized by Norwalk area residents. This block of buildings can now be erected approximately on the site of the present Women's Clubhouse, and the present Norwalk Square parking area enlarged.

Mr. and Mrs. Earl Sartwell attended the gem and mineral show Sunday afternoon in Long Beach.

Mr. and Mrs. J. E. Smith, 5701 Vonnie Lane, spent several days at Desert Hot Springs last week.

Mr. and Mrs. Fred Walley returned to their home at 5591 Danny ave. last week after a particularly fine trip to the midwest. Walley added almost 5,000 miles to his car's register. He saw one brother he had not seen for 32 years. Mrs. Walley went on to Sioux City, Iowa. The day after they arrived home with many pleasant memories, she had the misfortune to injure her foot when it turned under her in the yard of their home.

Mr. and Mrs. Jacke Van Dyke, 5252 Orange ave., and their sons Robert and Kenneth returned Monday evening following a week's vacation at Silver Lake.

Dr. M. H. Damron and Mrs. Damron spent a few days this week on their yacht, the "Senga", with a cruise to Catalina. They enjoyed a good rest.

Kenneth Brown, 5252 Lincoln ave., is confined at home with a serious illness, which the doctor says calls for a complete rest. He will not be allowed to return to work until he is completely out of danger.

Mr. and Mrs. R. O. Menker visited their son-in-law and daughter, Mr. and Mrs. Glenn Hubbard, 8121 Miller road, last Wednesday. They had returned from a vacation in the Santa Cruz mountains.

Mrs. Veriah Loar of Denver, sister of Mrs. Don Caul, arrived by air Wednesday for a nine day visit.

First jump from Los Angeles on the new L.A.-San Diego microwave radio relay system of Pacific Telephone is this repeater station on a mountain top high in the Cleveland National Forest near Santa Ana. The average span between points on the three-jump system is 45 miles.

Telephone Service Inaugurated New Micro-Wave Long Distance

Microwave radio relay—the speed-of-light miracle of scientific communications — is currently carrying long distance telephone calls between Los Angeles and San Diego following completion by The Pacific Telephone and Telegraph Company of a system of cloud-touching relay stations whose operation would rival the imagination of any early California pioneer.

In making the announcement, Telephone Manager Karl F. Dietzel said the new $2 million system is designed to relieve inter-city long distance open wire and cable facilities of the company and he also pointed out that the new radio relay route will be available for the transmission of television programs between the two cities when requirements develop.

Thus, for the first time within Southern California, inter-city microwave radio relay is fulfilling an important role along with already-established facilities which make the Southland strong for civil defense and at the same time cares for the accelerated calling needs of all telephone users.

Calls over the new system are beamed from downtown Los Angeles to a mountain top high in the Cleveland National Forest near Santa Ana, thence to another peak near Mt. Palomar in North San Diego County and from there to San Diego. The average span between the points is 45 miles.

The manager said that the latest microwave radio relay equipment developed by the Bell Telephone Laboratories, research and development unit of the Bell System, is used for the system which operates in the super high frequency range of 4000 megacycles.

He explained that like light waves, microwaves on the new system travel in straight lines and in general do not follow the curvature of the earth. They are focused like a searchlight and aimed point to point. Also, a clear line-of-sight must exist between intermediate stations.

The mountain-topping beams on the Los Angeles-San Diego system reach an altitude of nearly 6,000 feet to jump the terrain between the cities. The system now provides 120 message circuits over a radio channel in each direction and has protection channels for continuity of the service.

Permanent buildings which house complex repeater equipment have been placed on the two remote mountaintops. Separate alarm and control channels are handled by microwave radio relay facilities to maintenance locations near each of the relay points on the main route instead of over the usual wire facilities for such a system.

The over-all project was started during the summer of 1948, when a 2½-year testing period was launched. Construction work on the two repeater buildings was started as early as September 1950.

"Establishment of the new microwave radio relay system is a notable achievement in the development of Southern California communications," the manager said. "It is also an important step forward in the direction of service expansion and improvement and prominently shows the close relationship between the research, manufacturing, and operating companies in the Bell System—a communications team conceived in the public interst to provide service at the lowest cost to the user to be found anywhere in the world."

SAID IN CYPRESS

(Continued from Page 1)

advertising is not being properly solicited, and our office and print shop will not be open during the week since both Dale and yours truly have employment which takes us out of town. The first of September we are looking forward to changes which will be made for the better, we trust. In the meantime, with your cooperation, we'll carry on the best way we can while Mother and Dad K. enjoy a well-earned visit in Iowa, the state they left three years ago to make "California their home."

time at a detention camp until January, when he was released on probation.

Mistaken Identification

Presence of Rupp in Cypress Monday was questioned, but further investigation revealed it was not he. Mrs. Frank Noe and her husband were riding along when Mrs. Noe saw a boy she thought was either Rupp or another boy who was arrested here in 1948. Investigation by Constable H. A. Kelley revealed it was the other boy.

FRED WATSON RECOVERING FROM THROAT OPERATION

Fred Watson, 5832 Orange ave., is reported by relatives to be recovering satisfactorily from a serious throat operation last week.

He is expected to stay in the St. Joseph's hospital in Orange, where the surgery took place, another week, and then will be allowed to return home.

DEFENSE IS YOUR JOB, TOO!

Ch. Miss Bess, bassett hound shown by Patricia and Paul Hicks, was high scoring champion in the obedience trials at San Gabriel Valley Club show Sunday in Azusa.
